### PRESIDENT MOI WILL OFFICIALLY OPEN THIS YEAR'S MOMBASA NATIONAL SHOW

**INSIDE**  
SPECIAL REPORT  
**Mombasa National Show '89**  
PAGES 6-17

"TWAKUPENDA Kidhati Mtukufu Rais Moi" was echoed by several thousands of Wazalendo lining up the streets from Moi International Airport to the Provincial Commissioner's Headquarters.

The Swahili saying, meaning "We passionately love you, President Moi" - This actually formed the major theme of singing, chanting and a welcoming address by the Mombasa KANU Chairman, Shariff Nassir who described His Excellency President Moi as the true paragon of an internationally respected statesman whose integrity, nobility and dignity make Kenya proud of itself and Kenyans exceptionally happy with their President Moi.

Shariff Nassir, with his natural sense of humour, asserted that Coast people would be always getting better means of expressing their deeply embedded, passionate love, loyalty and obedience to His Excellency President Moi.

At the time of His Excellency President Moi's arrival at the

by FARAJ DUMILA

Airport and through the streets to P.C.'s Headquarters, the sky was showering abundantly and it was somewhat chilly yet the Wananchi braved the weather to concretely demonstrate their

HIS EXCELLENCY President Daniel Arap Moi.

passionate love to the President and offer him an outstandingly tumultuous welcoming with often repeatedly chanting: "Twakupenda Kidhati Mtukufu Rais Moi."

The President's response: "Mimefurahishwa sana na makanisho yenu" (I am extremely happy with your warm welcome). In his speech at the P.C.'s Office, he called upon all wananchi to jealously maintain their sense of dignity, integrity and nobility and be genuinely united as unity is a major factor which brings about fast and sustaining developments, emphasising:

"The development of any nation depends on unity of its nationals and maintenance of peace. We cannot ask other people to come to our help."

### 'Tribalism'

"Those who have taken the responsibility to rule, they must do so with honesty and give the young ones an opportunity to face the future with confidence and courage."

"Every mwananchi deserves an appropriate and equitable opportunity to serve the nation according to his talents and appropriate aptitudes."

He reiterated his fatherly advice to chief executives, in both public institutions and private firms "Shun tribalism at any cost. Many African countries have suffered untold agonies because of Tribalism."

## 'Too Many Taxes For Tourism' - Joshua Mwendwa

"TOURISM, now being the largest earner of foreign exchange, requires greater government attention and incentives for it represents the largest potential for development in the Kenya economy".

So said the chairman of the Kenya Association of Hoteliers' and Caterers' Joshua Mwendwa, when addressing its 43rd Annual General meeting at Nairobi's New Stanley Hotel, the Guest of Honour being the Minister for Tourism and Wildlife, Mr Katana Ngala.

The Minister, who had been congratulated on his appointment was accompanied by his Under

by NETA PEAL

Secretary, C.N. Chomba and Deputy Director of Tourism, Murithi M'Mbui.

Noting that tourism is a labour intensive industry, the chairman went on "already a large sector of Kenya's population is involved in it, as well as related industries such as hotels and restaurants, tour operations, safari excursions, beach and marine activities, souvenir manufacture and selling, tour guiding, photographic equipment and services.

The list is endless and it is difficult to estimate how many Kenyan lives are now dependant

## GRADE 'A' STUDENT

RISHI Varma was just about to leave for the airport, bound for the USA, when his 'O' level results arrived in Mombasa. He travelled a very happy student with nine 'O' level passes at 'A' grade to his credit, achieved in one sitting.

Rishi, a mere 15 year old in the Science set of the Mombasa Academy's 'O' level form, collected 'A's in English Language and Literature, French, Geography Mathematics, Physics, Chemistry, Biology and a double A in Computing Studies. (A for both examination and the school project).

Few manage such an all round certificate in one go; it will certainly give him the best recommendation to Episcopol High School Virginia, which he joins in September.

Other members of the Science set continued the school's record for giving their students high awards in the science and maths fields, Bikram Dang, Christopher O'Prey, Ameet Shah and David Wilding all gained six A passes and the set returned 100 per

• RISHI VARMA

cent passes in Chemistry and Biology and 92 per cent in Physics.

The non-scientists were not without their successes, Shaheeda Sheikh leading the way with passes to encourage her in the Lower Sixth of Roedean School.

The Mombasa Academy re-opens on September with completely new Kindergarten and Lower Preparatory department classrooms enabling the school to offer small classes and individual tuition throughout to fuel further successes for its pupils.

## Al Shifa Pharmacy More Than Just A Chemist ...

When it is Al Shifa Pharmacy in Ratna Square, Nyali, it is more than a chemist for you (they do dispense medicine at the back of the premises of course); it is more than a place for your pets and gardens (they do have a veterinary and agricultural section on the mezzanine floor, again, of course).

It is the shop for everything to make you beautiful — yes, Al Shifa is the place where you linger, ponder, and then decide what to buy to improve your person, or purchase as a professional.

Say you own a massage and beauty parlour. You should go to Al Shifa and see the famous House of Carmen if offering. Nothing like a good facial steamer by Carmen, or the same firm's body massage which offers five-in-one to include scalp improvement, a tonic, and individual components for facial, muscle and body massage.

Our feet, our supporters with their intricate bones, deserve

special treatment, and the House of Carmen have a special foot massage.

Some parlours prefer to use loafers others sisal, but both are here in glove, brush, or strip form.

L'Oreal of France's studio products are also available at Al Shifa, who supply many of the town hair-dressing salons.

and conditioner which we all know for we buy it in the shop, is more than it appears to be. However, it is only Al Shifa who stocks the exclusive range which includes moisturizers for the whole body as well as facial skin. Timotei process a wonderful deep cleansing lotion.

After use pat on the herbal freshener.

Al Shifa holds the sole franchise in Mombasa for the whole range of sensitive skin and facial care products.

Like the feet, our other workers are hands. But unlike feet, they are not hidden from view and often expose the secret of our age! Look after them with Ultra-Care rich hand cream.

Mombasa people are always asking us where they can buy Fuller's Earth. Even that is at Al-Shifa's - just arrived.

Other items we'd like to mention briefly before signing off and giving ourselves that deep cleansing beauty bath are Aapri (English-make) range, Healthcraft items, and Christy's Mud and Hot Pack (latter in measured "doses" in sachets) and sweet, sweeties only two calories each called Tic Tacs.

Don't simply ring Al Shifa on 471727, but be sure to make a detour when you visit the show this week — either before to beautify yourself, or after to freshen up.

## SHOPPING with ELAINE

But you, as an individual, can also buy if you feel up to mimicking the salons, for you can select from hair sprays, fixing or spraying gel, shaping gloss or styling gel.

If after all that you are not shiny enough then go in for the fluorescent hair colour which you can spray on for a party.

There is a three-shelfed showcase of bits and bobs for hair like ribbons, combs, artificial flowers and bulldog clips. These not only enhance the beauty of what should be your crowning glory, but they keep the hair in place.

Timotei, a brand of shampoo

## BLUE ROOM RESTAURANT

HAILE SELASSIE ROAD  
PHONE: 24021, MOMBASA

THE MINISTER for Transport and Communications Mr J.J. Kamotho is seen addressing the KPA Senior managers at the Authority's Conference Room. On his right (seated) is Mr S.T. Mwakisha, KPA Chair-

man, Eng. P.O. Okundi, Managing director, while on his left (seated) are Dr Momanyi, Assistant Minister and PS, Mr R.O. Adero.

## KAMOTHO SAYS HE IS PLEASED WITH KILINDINI PERFORMANCE

THE MINISTER for Transport and Communications, Mr J.J. Kamotho has called on the Kenya Ports Authority employees to always be patriotic while performing their duties in the port of Mombasa.

The Minister, who was on a familiarisation tour of the port of Mombasa, said the Government was always ready to ensure that the port of Mombasa, which he said was crucial to the economic development of Kenya and

by ANDY NYAGAH

several other nations in the region, is well equipped in order to operate efficiently.

Noting that the traffic of the cargo handled during the first half of this year was conspicuously high compared with the statistical figures of the cargo handled in the previous year for the same period, Mr Kamotho expressed his satisfaction in the manner in which the port of Mombasa was being operated.

### SECRETARY GENERAL

Mr Kamotho, who is also the secretary-general of KANU, commended the East African Conference Line for withdrawing the surcharge which the conference had imposed on the port of Mombasa in the middle of July,

1989. He said the withdrawal was welcome by the Government

He, however, assured the port users, that being the Minister in charge of ports, he will make sure that the users will get efficient services in the port.

"I want all the management staff of the Authority to always work as a responsible team with a view to ensuring that the port of Mombasa is run smoothly thereby enabling the turn-around of the ships to be fast enough", Mr Kamotho said, adding that the move will continue to attract more traffic through the port of Mombasa.

The Minister later presented long service awards to the Authority employees who have served the port for more than 30 years. The presentation was done at the Bandari College.

Mr Kamotho who was accompanied by one of his Assistant Ministers, Dr. P. Momanyi and the Permanent Secretary of the Ministry, Mr Richard O. Adero, was met on arrival by the KPA Chairman, Mr. S.T. Mwakisha, the KPA Managing Director, Eng Philip Okundi, two of the KPA Board members, Mr Joseph Ole Wuantai and Mr William Rotich.

## Student Success

OSHWAL ACADEMY entered 30 candidates in this year's University of London Overseas 'O' Level examination and most of the students obtained excellent results.

The most outstanding student was Hiten Ratil Shah who obtained nine 'A's, the best possible result in the examination. Others who excelled were: Nishit Dhanvantrai Maru and Divyesh Purshotam Parmar with six 'A's and Dipen Shantilal Shah, Kalpesh Navinchandra Shah, Nishmal Manilal Shah and Sachin Hasmukh Shah with five 'A's.

Of a total of 235 subject entries by 31 candidates, there were 78 'A's, 65 'B's, 43 'C's, 28 'D's and 13 'E's. This gives a pass percentage of 79.16 from grades 'A' to 'C' and 96.60 from grades 'A' to 'E'.

In the following subjects the Academy obtained 100 per cent passes. Accounts, Biology, Chemistry, Commerce, Economics, French, Geography, History and Gujarati. In the other four subjects the Academy offered the results were as follows: English 89.2, Maths 93.8, Physics 96.2 and Pure Maths 95.0 per cent.

The Headmaster Mr M.N. Joseph congratulated the staff on their dedication to work and the students on their diligence and hard work.

## A HINDU FAREWELL FOR THE BHALLAS

ALL THE chairmen and secretaries of Hindu Council of Kenya, Mombasa branch with their wives gathered together at Siri Guru Singh Sabha to bid farewell to Mrs Manorama Bhalla - High Commissioner of India in Tanzania, who are proceeding to Portugal and Spain respectively on transfer. Mr Rasik Devani, the chairman of Hindu Council of Kenya is seen handing over a gift to Mrs Bhalla.

PHOTO: O.S. LALL

HINDU Council of Kenya, Mombasa have hosted a farewell dinner, for the High Commissioner for India to Kenya Mrs Manorama Bhalla and her husband the High Commissioner of India to Tanzania - Mr Hardev Bhalla who are to take up their new assignments in Spain and Portugal respectively.

The dinner was held at the Siri Guru Singh Sabha Hall and all the constituent Hindu institutions and societies in Mombasa were represented by the presence of Chairman and Secretaries of the main bodies together with the Youth Chairman and the Chairperson of Ladies Wing.

The guests, after a warm reception were presented with inscribed Masai Carving and an Arab coffee pot to remind them of the coastal warmth.

Mr and Mrs Bhalla both in their address to the gathering advised Kenyan Hindus to be more welfare conscious and should garner themselves in a homogeneous society of all the different groups to assist the indigenus population.

From left to right, Mr Rasik Dewani, chairman of Hindu Council of Kenya, Mombasa, Mrs M. Bhalla, High Commissioner of India in Kenya, K.S. Suri Chairman of Sikh Community of

Mombasa, Mr Hardev Bhalla, High Commissioner India Tanzania and Mr R.S. Bhalla Asst. Commissioner of India in Mombasa.

## A Swahili Biography Planned!

HIS Excellency President Moi's concise biography in Swahili will be compiled, under the auspices of Mombasa Branch of KANU and guided by its chairman, Hon. Shariff Nassir, who is also an Assistant Minister for Information and Broadcasting.

The idea of having a Swahili Biography of His Excellency President Moi has been highly acclaimed and endorsed by the Public Relations Department of KANU Headquarters and promised its compiler, Faraj Dumila, soon the manuscript is received and found suitable and relevant to Swahili speaking community, the department would be willing and happy to publish it.

Shariff Nassir termed the idea as not only apt but most essential because His Excellency President Moi's life history deserves to be spread out to Swahili speaking readers, not only within the Republic of Kenya, but throughout the Swahili Speaking Region; particularly now that the Organisation of African Unity has approved Swahili to be one of the medium of deliberations in its Assembly and publications.

• Hon. SHARIFF NASSIR

## AMBITIOUS EXPANSION AT THE SERENA BEACH HOTEL

SERENA LODGES and Hotels have announced plans for a major refurbishment of their popular Serena Beach Hotel.

Work is scheduled to begin on the Mombasa hotel in January with plans for enlarging the existing 120 rooms and the addi-

tion of 50 new air-conditioned, sea-front rooms, including two "V.I.P.-style" suites with luxury balconies.

The creation of a central entertainment centre will include enhancement of the existing Fountain Restaurant, poolside snack bar and Makuti Bar, and the beach front Kisima Grill, and provide new bar and restaurant facilities with a spectacular panoramic view of the Indian Ocean.

Already highly acclaimed for its extensive sports centre which includes facilities for swimming, tennis, squash, mini-golf, scuba diving, waterskiing, windsurfing and deep-sea fishing.

## Fairy Tale Epic

EDDIE Murphy is back at the Lotus Cinema this time with a fairy tale epic *Coming to America*. Murphy has the ability to make showgoers laugh with a mere expression on his face, or by making the ridiculous seem normal or even with his excellent rapid fire dialogue delivery which only he can deliver with such ease.

*Coming to America* is to be shown for the last two days, today and tomorrow.

Prince Akeem son of the King and Queen (James Earl Jones and Madge Sinclair) of the mythical kingdom of Zamunda has been brought up in the lap of luxury.

Never has he ever had to do any of life's necessities by himself — what with someone to wipe his mouth, brush his teeth, put on his clothes, shoes etc. even pick his nose for him and give him a bath.

After a while, all this luxury begin to get to him. He wants to do things for himself. To be able to be alone for just a little while.

The final straw that breaks the camel's back is when his father, the king, chooses a bride for him, as is custom. A bride who has been brought up to be the perfect wife for a king.

### PRINCE AKEEM

A bride who does not think for herself, but for her husband, a bride whose happiness is not hers but her husband's. A bride

### PREVIEW with ABDUL R. SHERIFF

who would even bark like a dog and hop on one foot if her husband would ask her to do it.

That is enough for Prince Akeem. He convinces his father to let him go to America for a holiday before he gets married. His main intention is to find a bride who will be Queen of Zamunda.

His father who thinks that his son wishes to "sow his wild oats" before taking the final plunge all too readily agrees.

Thus Prince Akeem and his valet and companion set off to America — New York to be precise. And where in New York would you find a bride fit to be a queen? In Queens of course!

This sets the stage for the laughs to really begin.

On Sunday, Lotus Cinema starts screening *War Without End* with a message. A different war, a different game, where beyond winning is death and to lose is hell...

## GEMINI STARCAST

### VIRGO August 22 — September 21

Memories of a loved one, makes it impossible to concentrate on your work. A very lucky week lies ahead of you.

### LIBRA September 22 — October 22

Be more creative in all endeavours. Adjust to the circumstances, but do not be too vulnerable.

### SCORPIO October 23 — November 21

A young married relative will introduce you to someone very nice. News from a distance leads to a change of plan.

### SAGITTARIUS November 22 — December 20

A week to be devoted to family chores. Life certainly seems busy for you.

### CAPRICORN December 21 — January 19

A loving and lucky atmosphere is building up for you. You will get ahead with hopes and wishes.

### AQUARIUS January 20 — February 18

A stranger may bring a change of scene. Explore your horizon for possibilities before making decisions.

### PISCES February 19 — March 20

A terrible outcome may emotionally ruin you temporarily. If thinking of actually trying to save, this is the week to start.

### ARIES March 20 — April 20

Your beauty will create a mist of jealousy. Your sixth sense will prove very handy.

### TAURUS April 21 — May 20

Try to get on your own more often. A serious drawback for you financially.

### GEMINI May 21 — June 20

Express your feelings to a loved one with emotion - you will win. Do not be over optimistic about your will power.

### CANCER June 21 — July 21

A week to bury the hatchet. Tighten your grip on unnecessary spending.

### LEO July 22 — August 21

Be straightforward — in that way you will make yourself more clear. Failure in any new venture is likely.

# Taxes On Tourism

FROM PAGE ONE  
 upon the earnings from this industry".  
 "But" said the chairman "we do not see quite the same consideration from government, particularly with regard to tourism inputs, as is given to the agricultural sector of the economy which, for example, is enjoying customs duty privileges on importation. He described the duty on hotel equipment and motor vehicles as "exorbitant".  
 KAHC was also concerned that the tourism cake seems to be eaten away by many different forms of taxation. The latest being an amendment to the hotels and restaurants regulations, 1989, requiring hotels to pay the 10% per visiting tourist, as well as hotel and manager's licence fees.

THE MINISTER for Tourism and Wildlife, Mr Katana Ngala, is seen addressing the 43rd Annual General Meeting of the Kenya Association of Hotelkeepers' and Caterers' at Nairobi's New Stanley Hotel. Left are the Deputy Director of Tourism, Murithi M'Mbui and Under-Secretary C.N. Chomba second right is the association's chairman, Joshua Mwendwa, and right Stephen Smith, vice-chairman.

The chairman pointed out that "in an average Kenyan hotel we now have to deal with national licensing; local authority licences; liquor licences; Hotels and restaurants act licences; hotel accommodation tax; catering training levy; Service charge to local authorities; Pay as you earn; NHIF and NSSF, and a whole lot of other miscellaneous taxes and charges of one sort or another.  
 It is not so much the tax or fees that worry us, but the amount of administration they need. KAHC suggests it would be so much easier for most of the licences to be consolidated so that the proceeds can be distributed to government more efficiently".  
 The Chairman continued "we know that tourism features in the National plan, but we feel it is essential that government outlines its plans for expansion

in the context of the national tourist policy".  
 He told the minister "we feel sir, that your leadership in this area would be most useful and opinions should be gathered from all sections of the tourist business so that a plan can be formulated for the future".

## MARKETING

Of special interest to the association is "the national effort in promoting Kenyan tourism". Said the chairman "we feel it is necessary for more emphasis to be placed upon the concept that tourism is here to stay and must be heavily promoted". Adding "we feel, therefore, there is need for the Treasury to allocate more money for tourism promotion, especially abroad".  
 The chairman then referred to the Kenyatta International Conference Centre. "He had

been given to understand" he said "that only one major conference had been booked so far for next year".  
 He asked if the Minister could look into this as the KAHC was anxious that the maintenance, marketing and promotion of KICC be enhanced".  
 Another area requiring attention was that of Kenya's overseas public relations as far as they affect tourism. Said the chairman "the last 18 months had seen several serious scares affecting our market starting with AIDS, then malaria, meningitis, poaching and the very unhappy incidents in the parks".  
 He told the Minister "we feel there is need to hire professionals to handle the international press to ensure that such scares do not get out of hand and thereby adversely affect the tourism industry".  
 The chairman then referred to the serious water situation at the coast. "KAHC hopes that with the new national water development conservation and pipeline corporation being able to keep its own revenues from water sales, the problem of providing adequate supplies at the coast may ease".  
 It was considered that in this situation "government must act resolutely, not only for the sake of tourism but coast residents as well".  
 The association thanked the government for providing a bridge at Kilifi, which is now under construction, and called for a bridge at Likoni or causeway from Mombasa's Moi International Airport to the south coast - which is urgently required.

# This Week On TAMARIND DHOW!

SEEN relaxing on a boat of a different kind are Simon Booth and Lisa Sparrowe. Simon is an Officer in the British Royal Navy aboard 'H. M.S. SHEFFIELD' which was in Mombasa for re-stocking as well as a rest and relaxation for the crew.  
 'H. M.S. SHEFFIELD' is a new ship recently commissioned, it replaces the previous ship of the same name which was sunk during the Falklands War by an Exocet missile.  
 Lisa, who is a marketing executive in England, said they both thoroughly enjoyed their evening on board the Tamarind Dhow and both hope to return again to Mombasa ... soon!

FOR TWO YEAR old Marianne Looyem the music of Tamarind Dhow's resident band 'Afro Ryth' proved to be irresistible. Dancing to the beat of the latest music Marianne was a great hit on the dance floor.

# HIPPO VIEWING PLATFORM AT CROCODILE CAMP SITE

NOW in perfect safety one can see live hippo in the wilds. A new platform has been constructed on the edge of Crocodile Camp in Tsavo East and is fitted with spotlights to make the viewing of hippo an easy affair as they come up out of the water to graze and laze around. Already famous for being the only camp in Kenya where one may safely view wild crocodiles being fed, and also where these saurians react to being called by individual names, it will soon be famous for its hippo viewing.

This information was provided by Mr Godfrey Karume the general manager of Tropicana Hotels which corporation also manages Crocodile Camp located one mile outside the Sala Gate in Tsavo East.

A hippo is usually a nocturnal animal, and during the day remains hidden in the water commented Mr Karume. Hence the management has set up a series of powerful spotlights in order that the guests could be able to have a clear view and take photographs. This new contribution to the game viewing in the area appears to be gaining in popularity rapidly judging by the number of visitors who come to the camp and use the lookout.

# Our Heritage of Faith...

IF ALL else fails, read the instructions." Picture a person with an expensive new camera - he has used a camera before - many times - and he knows how it works. There was an instruction book provided, but he doesn't need to read it; he is an expert!  
 Then he has his first film processed. Every exposure is blank! He has taken a whole film, and has nothing to show for it.  
 What is he to do? He goes to the instruction book, which he should have read before, and there he finds the vital thing which is unique to this camera, and which he would have known about had he read the maker's instructions at the start.  
 Many people act like this in their lives. They think that they can manage perfectly well by themselves; haven't they made quite a success of things so far?  
 But then a time of trouble comes - something which they

could not have anticipated. Everything goes wrong.  
 Some people continue to muddle through by themselves, still thinking that they must cope somehow.  
 But there are those who at times of trial have had their thoughts to God, their maker, and to His instruction book, the Bible, which gives the principles on which a truly successful life must be based.  
 A wise person consults the instruction book and does what it says. Such a person was King David, who wrote, *Your word is a lamp to my feet and a light for my path ..... I will follow your righteous laws.* Psalm 119:105-6.  
 Jesus tells us that the one who hears or listens to his words and puts them into practice is like a wise man who builds his house on rock. When the storms of life come, he will be able to cope.  
 H.P.

## ASSOCIATION

However, the association was pleased to read in the press that the Director of Wildlife and Conservation Management had closed for repairs the road between Tsavo and Amboseli. Said the chairman "we have been complaining about the state of this road for some time".

Roads in both Amboseli and Maasai Mara Game Reserves were also not in a good condition.

He told the Minister "we should be most grateful if you can draw the attention of the relevant county councils to the necessity of preserving their assets in terms of their tourism revenue".

The chairman advised the Minister that KAHC had come to an agreement with News Publishers to take over their Kenya Hotelier and Catering magazine "as the official voice of the association".

It will also include full information on the activities of Kenya Utalii College.

Here the chairman said how appreciative they are of the college's efforts in training within the industry.

# MOMBASA NATIONAL SHOW

Message from Mr S.P. Mung'ala, Provincial Commissioner, Coast. IT GIVES me great pleasure to welcome you all to Coast Province and to Mombasa District in particular during this year's A.S.K. Show.

This auspicious occasion is an annual event in our show calendar that brings together people from diverse backgrounds to our Coastal town of Mombasa to see for themselves what the wananchi have done in their endeavour to uplift their social, economic, cultural and political standard of living.

It is also an occasion for us to learn from the success of those who have ventured in the fields of agriculture and industry to enable us redouble our efforts to facilitate the attainment of our country's goal of self-sufficiency in food production.

I welcome you all to our 1989 Agricultural Show and wish to express my sincere hope that you will learn something of benefit to you as an individual and to the Nation in particular.

Coast Province is composed of six districts with an area of 86,830 Sq. Km.

A total of 570 Sq. Km. is composed of water. About five per cent of the area is high potential land receiving between 735 mm to 980 mm of rain per year.

THE "Baymix Trophy" is seen being presented for the Best Small Scale Dairy Farmer at the A.S.K. Mombasa Show (donated by Bayer E.A. Limited). The trophy is presented by Mr. Tarmohamed A. Kana-Bayer E.A. Limited - Coast Representative

to PC Mr S. Mung'ala. Also present are Mr Wargo National A.S.K. Show chairman and Miss Shuwekia Mombasa A.S.K. Show chairperson. The trophy was donated on August 24, 1989 when the PC toured the Showground.

Most of this high potential land is in Wundanyi Division of Taita Taveta District.

The rest is largely low potential land receiving less than 735 mm of rain per year and is only suitable for ranching and irrigated agriculture.

The Mombasa Show opens its gates to the members of the Public from August 31 to

September 3, 1989, and the theme as was the case last year, is to "Diversify Production in

the Second Nyayo Decade".

The choice of this theme gives cognizance to the important roles being played by the 1.7 million people of this Province in their endeavour to exploit the Agricultural, Tourist and Industrial potential of this Province.

Thanks to the support being provided by our Government in the form of extension services the wananchi have been able to transform Coast Province into a food granary capable of sustaining food requirements of the ever-increasing population in addition to a surplus for sale in other areas.

In 1988 the total area under cultivation in Coast Province was approximately 280,000 hectares. We received good rainfall which was evenly distributed all over the year and this enabled our farmers to realize good harvests.

Maize is the predominant cereal crop grown in the Province with a production of 110,000 tons in 1988 compared with 83,000 tons in 1987. The other major cereals are Rice, Sorghum and millet in addition to pulses.

The main cash crops produced in Coast Province are cashewnuts, cotton, coconuts and simsim and also horticultural crops. With the

formation of Coast Province Development Authority promised by H.E. the President sometime in 1988 we anticipate that production from our tree crops will double due to improved husbandry, processing and marketing.

We are at the moment producing 25,000 tons of cashewnuts for domestic and foreign consumption.

The giant Bura Irrigation Scheme in Tana River District is the main producer of cotton with an output of 5,000 tons per annum.

Coast Province is largely a low potential area suitable for ranching. There are a total of 29 operational ranches with a population of 56,350 animals.

The ranches have enjoyed the credit facilities in livestock development programme Phase I and II in which 25 ranches are participating with project capital outlay of over Ksh. 110 million in form of credit from the Agricultural Finance Corporation (AFC).

Besides the ranches, the wananchi are also keeping a total of 2.34 million shoats and cattle to supplement their incomes.

Through the extension services being provided by the

"Keeping you in touch world wide"

# 'Diversify Efforts During Second NYAYO Decade!'

THE THEME for this years show remains the same as last years that is, *Diversify Production in the Second Nyayo Decade.*

Indeed the theme must be repeated until such a time that we have fulfilled this requirement, and if not we must have at least approached the target and come as near as is possible.

As a coopted member of the main organizing committee and having attended a few of the meetings, I am pleased to say that the team spirit displayed by the committee is encouraging.

The committee is made up of volunteers who give of their time just to ensure that the show is the success our Mombasa one always proved to be.

This years show is no exception and as usual everybody is expected to enjoy themselves and at the same time learn something of our Agricultural and industrial sector.

There are different exhibitors, displaying diverse goods and ideas which we should all endeavour to know about.

Our Council in its committee to the fame has also got the responsibility of providing the necessary infrastructure such as roads, for ease of transport of the farm commodities.

Mombasa is a central point and the main centre in the Coast Province and naturally it therefore becomes a collecting and dispatch centre for the farmer.

As part of the on-going exercise in serving the people, the Council, through the government built the New Kongowea Market at the cost of 40 million shillings. The project was funded by KFW of Germany

We are indeed grateful to the Government for this assistance while this market is doing a lot for farmers living as far off as Kisii and Meru.

Eventually it will handle commodities coming from even the neighbouring countries.

This project comprises one of the Councils major contribution towards the development of Agriculture in the country.

Projects like these will normally meet with big support and approval from the Government

seeing that our country's Farmer No. 1, His Excellency the President Hon. Daniel Toroitich arap Moi, has great concern for the farmers welfare.

Our beloved President is concerned that both the producer and consumer get satisfaction. He has constantly exhorted us to work hard and

MAYOR MWIDANI

make this country self sufficient in terms of feeding ourselves.

This we are capable of doing if we use the right methods and heed the Presidents call of working hard.

On our part, we should be patriotic and heed the Presidents call. Let us pull together in the spirit of harambee and unite in the Nyayo spirit.

With these ingredients, we can never go wrong and we will get closer to our this years theme of "Diversify Production in the Second Nyayo Decade."

At this juncture let me say a word of warm welcome to all our visitors to the town and the show, including our very distinguish guests who comprise senior government leaders and executives and others.

It is our hope that you will each enjoy your visit to the show and that after the show most will combine it with a holiday and stay on to savour the beauty and hospitality of this sun-drenched town.

To all members of the show committees, led by the Branch Chairman, I wish to say congratulations on the hosting yet another successful show this year.

I here wish to pledge the continued support of the Mombasa Municipal Council in areas where you may require our assistance.

In the Nyayo spirit of working together, the committee has proved the words of His Excellency the President Hon. Daniel Toroitich arap Moi who has always told us that "Unity is Strength."

Enjoy the Show! Thank you.  
Councillor A.S. Mwidani,  
MAYOR OF MOMBASA.

## HANDLES URBAN CONGESTION WITH EQUAL EASE

Once a Suzuki Sierra gets going, there's no stopping it. On Safari. Or on the highways.

There's no stopping its nippy body. Through rural roadblocks or city snarl-ups, the Suzuki Sierra slips through. No trouble at all.

There's no stopping its incredible fuel economy. (15 kilometres to the litre.)

And there's no stopping its appetite for luxury. The Super Sierra's standard features include deep comfortable seats, thick carpets and stereo radio cassette.

The Suzuki Sierra and the Super Sierra

are part of CMC's versatile 4 x 4 range. Visit the CMC showroom and take one for a test drive today. There's no stopping you!

PO Box 48416, Nairobi, Kenya.

ONCE AGAIN, I wish to welcome all the Showgoers to 1989 Mombasa National Show Committee and the exhibitors who have endeavoured to make this year's show yet another record breaker.

The 1988 Mombasa National Show was a record breaker in the Branch, both number of visitors who attended our show, and the standards of displays put up by exhibitors; livestock and farm and dairy produce.

The Arena activities will this year be packed with several new and spectacular events. Trained and spectacular dancers will be displayed by school children from all parts of the province, special surprise event, sponsored by K.P.A. will be displayed immediately after the official opening.

The Tattoo events will be displayed from Friday, September 1 to 3, 1989. In Mombasa, members will be able to see the tattoo for free, whilst for non members, the normal daily perimeter gates charges of 15/- per adult and 8/- per child will be enforced.

This is an opportunity to watch tattoo events at this rate, whilst in Nairobi International Show the charges are 60/- per adult per day for members and non members.

The following parastatals and private firms have continued to give the society a lot of financial support:

B.A.T. Kenya Limited, Bamburi Portland Cement Company Limited, Mwangi Coffee, Kenya Ports Authority, National Youth Service, Provincial Commissioner and his office, His worship the Mayor and his Council, Kenya Railways, Kenya Posts and telecommunications, and many other companies.

The support has enabled my Branch to keep aside over half a million shillings, for capital project. I am grateful to all those who have supported the society last year and this year.

The Jomo Kenyatta Showground has now been extended to five acres more and I am proud to state we shall now be able to accommodate about 100 more exhibitors in the extension. I wish to welcome the following new exhibitors:

National Water Conservation and Pipeline, National Bank of Kenya, K.N.T.C., K.P.L. Company, and the K.N.F.U.

I wish to take this opportunity to also pass the Society's gratitude to all the members of the Mombasa National Show Committee.

considering the fact that the success of the show depends entirely on the output of volunteers, I have endeavoured to harmonize relations between volunteers and staff in such a way that preparatory work goes on smoothly.

You are all welcome to Mombasa National Show 1989. Ms. Shuweikha S. Rashid, BRANCH/SHOW CHAIRMAN.

**S.M.** menthol cool

## K.F.C. FOR STEADY, STABLE SAVINGS

KENYA Finance Corporation established in the year 1976 has experienced a stable, steady and profitable growth since its inception. The Company which is now public and quoted in the Nairobi Stock Exchange has a network of five branches in Nairobi, Mombasa, Nakuru and Meru.

The Company operates various Savings Schemes for its customers including the following:-

- Savings Accounts, Children's Savings Accounts, Money Maker Accounts, Save As You Earn Scheme, Flexible Investment Accounts, Retirement Savings Plan, as well as Fixed Deposit Accounts.

The Company gives loans on Hire Purchase and Leasehire of assets such as motor vehicles, plant, machinery and equipment.

The loans portfolio has been diversified to include property purchase, estate and schools development, agriculture, wholesale and retail trade, manufacturing, tourism etc. Indeed the company finances all sectors of the economy.

"Call on us at any of our branches so that we may start working together today to build a better tomorrow".

COAST Province is endowed with a wide range of climatic conditions which facilitate production of a variety of food, industrial and horticultural crops.

A total of about 280,000 ha. were planted with various crops in 1988 with industrial crops, food crops and horticultural crops occupying 139,592 ha., 112,000 ha. and 24,500 ha. respectively.

About K£ 28 million was earned from production of 197,000 tonnes of industrial crops in 1988 while the production of major horticultural crops of about 254,000 tonnes fetched about K£ 24 million during the same period.

Main food crops of maize, rice, pulses and cassava produced 293,500 tonnes valued at about K£ 20 million.

Production of coconuts and cashewnuts enjoy special dominance among the industrial crops as two crops which thrive well only in Coast Province. The Province is doing very well in cotton production contributing about 40 per cent of the national

# COAST PROVINCE PROVIDES GREAT VARIETY OF FOOD, INDUSTRIAL AND HORTICULTURAL CROPS

cotton output.

The irrigated cotton in Bura Irrigation and Settlement Project and Hola Irrigation Scheme have performed very well in the past both in quality and production of about two tonnes per hectare.

Rained cotton production in all the six districts of Coast Province will be expanded from the current 10,000 ha. to 12,000 ha. in 1990.

Emphasis will also be placed on increased production of simsim and bixa in Kwale, Lamu, Mombasa and Kilifi Districts.

Like farmers in other parts of

the country, Coast Province farmers are diversifying their production into farming of Arabica coffee in Taita and Taveta District and Robusta coffee in Kwale and Kilifi Districts.

## New Maize

In line with the National Food Policy of self-sufficiency in food emphasis in the Province is being laid not only on production of enough food but also on adequately balanced diet.

The news of the recent release of a new maize variety, the Pwani Hybrid 1, has been received

with a lot of enthusiasm by Coast farmers and will encourage expansion of current hectareage of Coast Composite in the low areas, the hybrid maize in the higher areas of Taita Hills and local maize varieties.

In addition, cassava, Sorghum and millets production will be expanded in the drier areas of the Province while production of both small scale irrigated and rainfed rice will be increased through designing and construction of new small scale irrigation schemes in Kwale, Taita Taveta, Kilifi and Tana River Districts.

Inclusion of pulses in this production programme will ensure ready source of protein to provide well balanced diets.

A very high potential for production of horticultural crops exist in Coast Province. The area produces some of the best mangoes, citrus and pineapples, in the country.

Fruit tree crops nurseries have been established in all districts of Coast Province to provide suitable planting materials to farmers in the Province.

There are 18 such nurseries which produced some 150,000 seedling of various types (fruit trees and agroforestry trees) in 1988.

These nurseries will be registered and expanded for production of higher quality seed materials in future.

Growing of vegetables is being encouraged in order to make the Province which has been dependent on outside supplies to be self-sufficient in these crops.

The viable production of spices has not been exploited and farmers have been asked to expand on the area under these crops which could be a good source of foreign exchange.

## Nutrition

Matuga Research Station is collecting and bulking materials for multiplication in order to provide a good source of planing materials.

Post-harvest crop losses are attributed mainly to insect infestation, molds, birds, rodents and spillage and their economic, nutritional and physical values could at times be insurmountable.

Farmers have been advised to protect their crops from insects damage by treating their produce with appropriate chemicals while at the same time good house-keeping and proper drying of grain has been equally emphasized.

Through the Rural Technology Development Unit (RTDU) of the Ministry of Agriculture suitable cribs which allow proper drying of maize, thus improving on the grains storage life have been developed and extended to farmers in all areas of the Province.

In addition, close surveillance and monitoring of migratory pests have been conducted effectively and farmers advised on control measures at appropriate time.

In addition to increasing crop production, emphasis has also been placed on soil and water conservation. The concept of catchment approach has been implemented in all areas of the Province.

These measures have included digging of bench terraces, cut-off drains, rehabilitation of over-grazed areas, river-banks protection and practising agroforestry.

Irrigation projects have been started through the District Development Committees, the Non-Governmental Organisations and the Government.

A total of 14,000 ha. is under irrigation with the Bura Irrigation and Settlement Project, Hola Irrigation Scheme, Lower Tana Delta and Taveta irrigation schemes being the major projects.

Agricultural mechanisation service is a major Government programme geared to making tractor services available to both large-scale and small-scale farmers.

The Mariakani and Garsen Agricultural Mechanisation Stations have endeavoured to provide these services to Coast farmers. Where tractor services have not been readily available due to breakages of machinery, the Government is making neces-

sary arrangements to rehabilitate the machineries so that the farmers may benefit more.

Suffice it to mention that through this programme, some 43,570 ha. have been brought to production of maize, cotton and rice in Coast Province while some 80,570 metres of terraces, cut-off drains, and canals have been constructed.

A further 1,206 Km. of farm roads and about 313,700 cubic metres of dams and water holes have been dug in various parts of the Province using the Agricultural Mechanisation Services.

Development of suitable and simple technologies for the local farming communities will continue to be practised through the expansion and strengthening of the Rural Technology Development Units (RTDU) particularly in areas of harnessing of animal power by training oxen and donkeys in ploughing or transportation, development of simple farm tools and implements, rehabilitation of farm implements, and construction of improved storage structures.

These techniques will supplement services offered through the Agricultural Mechanisation Stations.

Utilisation of all available land is very important. Providing marketing facilities and availability of farm credit would enhance intensification of agricultural production in the Province.

In 1988 the Agricultural Finance Corporation assisted 3,016 farmers with a total of KSh. 185,687,736.00 for both crop and livestock production. The Co-operative Societies were the main channel through which farmers received agricultural inputs and marketed their produce.

There was an increase of 310 per cent in the utilisation of improved seed by farmers indicating that the farmers were adopting the teachings by the extension service.

Through the National extension programme, farmers have been continuously trained and visited in their farms. The extension methods include scheduled visits, planned field days, barazas and above all, demonstrations and residential courses at our farmers training centres.

The farmers training centres are now being strengthened and developed (demonstration farms) in order that they become good examples of what a properly, well managed, efficient and profitable farming is and should look like.

The Ministry of Agriculture realizes that if farming has to be improved and productivity increased, then the youth and women have to be in the forefront of all the knowledge needed for better farming.

## VEGETABLES

Thus an intensive Rural Youth programme is now on, giving practical assistance to schools (both primary and high) and colleges through the 4-K clubs in the former and Young Farmers Clubs in latter.

Their motto is "To learn by doing." There are 455 4-K Clubs with 12,919 members out of 930 schools in total which have 68 animal projects, 470 crop projects and 17 tree planting projects.

All in all, the Province has still vast potentials untapped which in the second Nyati Decade will be fully exploited.

The main areas of concern for the future is to improve our semi-arid lands by growing improved drought resistant crop and diversification of crop especially the exploitation of increased spices and vegetable production coupled to high quality fruit production.

ISAAC R. KIIRU, PROVINCIAL DIRECTOR OF AGRICULTURE COAST PROVINCE

# 50 tons of pulling power

The Fuso 415 is built strong to take a 50 ton load over long distances at high speed. On paved or unpaved roads. It's designed to take the heaviest of loads, sea cargo containers, fuel oils, logs and heavy-construction equipment.

## Durable, cost-efficient power

The Mitsubishi 8DC9-1A direct-injection diesel engine produces over 320 hp at a remarkable low 2200 rpm. This results in outstanding fuel economy even in the lower speed ranges. A specially designed "snorkel" intake system improves the fuel economy by taking in cooler, cleaner air, reducing engine wear to the absolute minimum.

## 6x4 traction, no wasted power

A 10-speed transmission with high/low settings ensures that there's a gear to move the load, no matter what the incline. The traction provided by the rugged tandem driven rear axle gives extra road-holding power even in the worst conditions.

## Made for the rough

Pitching and rolling by the trailer on uneven road surfaces not only makes an articulated truck difficult to handle but also puts incredible strains on the chassis, with disastrous results. The especially engineered 2-axis coupling on the tractor unit has been designed to absorb these movements. These can also be adjusted to match exact rolling conditions.

## Good parts back-up, investment protection

Breakdowns and accidents do happen. When they do, a truck has to be back on the road quickly and efficiently. Our service people are professionals, factory trained in the latest service and repair techniques with many years experience working on heavy trucks. And we stock a high level of the parts you'll require. In the unlikely event that the part that is needed is not

in stock, we'll air-freight it courier express.

We'll protect your investment.

See us at the Mombasa ASK Show

MITSUBISHI FUSO FV 415

# Unique Pilot Project To Develop 'Prawn Industry'

W. Oduor, Assistant Director of Fisheries, writes:

THIS YEAR, through the medium of this catalogue, we in the Department of Fisheries, Ministry of Regional Development, would like to familiarise the public with this unique pilot project which has been carried out at our farm, not only to literally farm the sea but also to make marshy ground next to the sea produce quality food and thereby, to help provide employment and a source of income to local people.

This is at Ngomeni just north of Malindi in Kilifi District where, since 1982, on a 15 hectare site, collaborative effort between the United Nations, UNDP, FAO and the Kenya Government, ten ponds, each just over one hectare each, constructed by local hand labour with concrete gates, for letting in and out sea water at high and low tides respectively, in which young prawns (shrimps) are stocked and allowed to grow to marketable size for sale.

So far, our methods have been fairly simple. Young prawns (shrimps) collected from the surrounding creeks with fine nets and stocked into the ponds at 30-40 thousand per pond and develop on natural food brought in by the sea water and supplemented with animal food organisms which multiply from pond water fertilisation with animal and chemical manures.

Water in ponds changed regularly about ten times in a month to keep salt and air content in the water as uniform as required by the prawns under our climatic conditions.

Good marketable prawns are obtained after three months; making it technically possible to reap three crops from each pond within one year.

Time is needed enough, to dry, repair and fill the ponds to required depths before new crops are stocked.

Although our yields at Ngomeni have gradually improved since

the project was started, reaching now about 300 Kgs per pond per harvest or, about 900 kgs per hectare per year, these yields are still very low compared with similar farms in the Far East or South America; but have achieved under our conditions in Kenya both technical and economic viability.

## TIGER PRAWNS

Of the three kinds of prawns found naturally in the wild here, the white and tiger prawns are commonly grown.

Although this pilot project has stressed on prawn growing; in its wider scope, it was intended to grow fish as well and indeed even now, milkfish which passes into the ponds through the screens in very young stages already form an important by-product when the ponds are harvested.

Even the ubiquitous tilapia is being harvested as a weed! Thus in addition to projecting our prawn growing techniques there are many aims still to be achieved at the project.

Surveys already conducted along the entire coast for areas free of pollution and with suitable soils and salts reveal considerable potential resource for prawn farming under possible techniques of: extensive - simply changing water in wide areas; semi intensive - as we presently practice at Ngomeni; and intensive - large heavy stocking with frequent mechanical water changes feeding and fertilising.

## INVESTMENTS

However, at present here in Kenya, there are two paths of applying the results so far obtained. Low scale simple embarkments or ponds owned by local individuals or groups requiring little investment to be supported by departmental extension services, and the big ponds requiring substantial investments to be run independently by private investors.

Naturally, the encouraging results we have obtained at

Ngomeni have attracted several interested parties some of which have actually started.

It is expected that such private farms because of their greater emphasis on production in contrast to ours where research, training and demonstration are also pursued.

Right now, experiments are being conducted towards cheaper and best methods of manuring to cut down costs and it is planned that a hatchery will be built to ensure sufficient quantities of desired types and sizes of young prawns to be stocked.

At Ngomeni our present harvests landed at least once a month are washed and delivered to one bulk buyer on site through an annual open tender system.

THE COAST P.C., Mr Simeon Mung'ala receiving the Kenya Finance Corporation perpetual trophy from Mr Gikonyo (K.F.C. Coast Manager) and Mr Taabu (K.F.C. Coast marketing manager). Looking on are the chairman of the Mombasa Show

Ms Rashid, (right) and the National Chairman of the A.S.K., Mr Wango (third right). The trophy will go to the best stand in the farm and Dairy category.

# GROWING POWER

With the Fiatagri range of tractors from 50 to 160hp you can till the land, and harvest and transport your crops economically. Whether you are a big acreage farmer or a smallholder there's a dependable Fiat tractor to meet your needs.

### Fiat 160-90dt

The big brother of the Fiatagri range. With 160hp and 4WD, it's ideal for land preparation on a large scale. Standard equipment includes twin rear wheels.

### Fiat 115-90dt

A 4WD 115hp tractor with a large hydraulic lift capacity to ensure the correct hitching of even the largest implements. It is equipped with rear and front PTOs.

### Fiat 100-90dt

A 4WD 100hp version of the 90 series tractors which are all equipped with robust clutches and front ballast weights.

### Fiat 100-90

The smallest of the big 90 series this 100hp tractor is ideal for the heavy loads placed on tractors by farmers who are transporting sugarcane or cultivating large acreages.

### Fiat 80-66dt

This 4WD 80hp tractor is the largest in the 66 series.

### Fiat 80-66

A durable multipurpose 2WD 80hp tractor. As with all of the 66 series tractors it has a 12-forward and 4-reverse gearbox and is complete with front ballast weights.

### Fiat 65-66

This 2WD 65hp tractor is the all-purpose workhorse, in the field or on the road.

### Fiat 55-46

An economically multipurpose, fully equipped 2WD 55hp tractor with ample power to undertake any farm work, including ploughing.

### Fiat 55-66dtv

A 4WD 55hp narrow gauge tractor, ideal for vineyards, coffee farms, tea and sisal estates etc.

Backed by Fiat's pacasetting technology and sold and serviced by Kenya Motors, a Motor Mart Group company.

Fiatagri tractors are economical to buy and run. They're the answer to the growing demands placed on today's farmers.

*We'll look after you!*

A Division of the Motor Mart Limited

THIS YEAR Mombasa National Show promises to be a greater success than it has been in previous years.

This is due to the fact that the number of trade exhibitors has increased tremendously and, they are all out to give the best they can to the show goers, with the acquisition of our New Five Acre Plot, we expect even more exhibitors to join the others.

Among the new exhibitors this year are, The National Bank of Kenya, The Co-operative Bank of Kenya Finance Corporation whom we expect to give the giants like Barclays Bank, Kenya Commercial Bank and Standard Bank a very stiff competition in their financial institutions category.

Fierce competition will also

## 'International Participation From China ...'

be expected in the Non-Agricultural Statutory Boards stands with the inclusion of a new parastatal organisation, The National Water conservation and Pipeline Co. who are in the new Five Acre plot.

The Chinese embassy is back again this year being the only International Trade Stand with

three Chinese Companies and are expected to display varieties of Modern Machinery and tools etc. of very modern technology.

### COMMITTEE

Every effort is being made by my Committee to encourage other International Trade Exhibitors especially from the P.T.A. countries so that the Mombasa National Show becomes International in the very near future.

Trade exhibitors have been classified into 13 categories and will be judged by how best they have displayed their products or services, overall attractiveness of the stand, Reception by their personnel and theme interpretation

which is - Diversify Production in the Second Nyayo Decade.

All winners in each class except small stands will enter for judging of the Best Overall, and highest scorer in theme in each class will be entered for judging the best theme interpretation.

Small stands in the Bazaar will be judged as a class of its own and will not be judged for the best overall, but for the best display services at the bazaar.

Judging will be done on Wednesday, August 30, 1989 by very competent judges from all over the country who are well known for their impartiality and will be under the guidance of the Chief Judge Hon. Jonathan Mturi.

We therefore expect very high standards of competition from the Trade Exhibitors, and a very enjoyable and educative show to the show goers ever held in this showground.

We look forward to seeing you  
**ALBERT FARRAR MAONGA**  
INTERNATIONAL/NATIONAL  
TRADE CHAIRMAN

## 'A VERY SPECIAL WELCOME'

LET me take this opportunity to welcome all our visitors to the 1989 Mombasa National Show. A special word of welcome to those who have joined as from outside our jurisdiction I wish each and everyone of you a joyful and memorable four days of learning and entertainment.  
L.E.O. MIDI (MRS), HOSPITALITY AND COURTESY

A FUSO TRUCK to be exhibited by Bruce Trucks and Equipment at their public stand during this year's Mombasa National Show.

## BRUCE TRUCKS And EQUIPMENT

BRUCE TRUCKS and Equipment a division of the Motor Mart group is among the major exhibitors in the Motor Industry during this year's Mombasa Show.

Bruce Trucks and Equipment are the local franchise holders for Mitsubishi Fuso range of trucks, buses and forklifts. They also handle Hanomag construction machinery.

According to Bruce's General Manager Mr Peter Pringle, Bruce will be exhibiting its range of Mitsubishi Fuso trucks and buses which commanded 24 per cent overall market share of unit sales for the first half of this year.

And Mombasa, has become a key market for Mitsubishi Fuso Trucks. During the first quarter this year, Mitsubishi Fuso trucks gained a market share of 36 per cent and 50 per cent for the buses in Mombasa.

Bruce Trucks and Equipment ensure that they offer full service, parts supply and full support for customers who buy their range of products. They have a team highly experienced and qualified personnel for such service and there are 15 fully stocked parts and service centres in Kenya.

The Bruce stand is a must for potential customers and those owning their range of products.

## Agriculture and Unga Group go well together...

As Kenya grows so does the need for more food.

For 80 years we've been developing the Unga Group of Companies to meet the requirements, the demands, that feeding a growing Nation such as Kenya requires. We produce maize meal, wheat flour, bread, pastas, cereals, edible oils, pet foods, animal feeds and veterinary products.

In fact today we are the largest wholly owned Kenyan agro-food conglomerate in the country.

This year as we celebrate our 80th year of operation, every company within the Group is ready to accept the challenge, the responsibility that the next 80 years will bring. All of us are facing the future with confidence.

# The First Kenyan- Owned Electronics Manufacturers

SOLLATEK Electronics Kenya Limited was started in 1987 in a modest workshop in Haile Selassie Avenue Mombasa, and Sollatek U.K. was to provide the technology with the aim of creating the first Kenyan owned electronics manufacturer in Kenya.

At the time training in the field of electronics was very limited in Mombasa, so it was decided to progress slowly taking one product at a time and carry out an "on the job" training programme.

It is important to mention that Sollatek Kenya only manufactures Sollatek brand products. This is rather unusual in Kenya where companies tend to take several different agencies for a variety of products.

The reason for this decision was that Sollatek would not be reliant on overseas suppliers for spare parts or backup.

A spokesman from Sollatek said, "It seems to us that whenever a complex electronic product goes wrong in Kenya there are neither the spares nor the technical expertise to carry out repairs immediately. We saw a big opportunity here because repairing products we manufactured ourselves would be very simple for us, and we would gradually gain a reputation for providing good products with a first class backup service."

"Thus our long term aim is to provide excellent products which are manufactured locally, and to increase the local content of the products as much as possible without sacrificing quality."

Sollatek started with a range of single and three phase "Automatic Voltage Switchers"

to protect electrical appliances and industrial machinery against voltage fluctuations in the mains electricity supply. The workshop staff soon became expert in the techniques of assembling, and soldering the components onto the printed circuit boards.

## POTENTIAL

Sollatek has now expanded into more sophisticated "Stand-By Power Supplies" for computers, and the local assembly of computers themselves.

A recent development for Sollatek is Solar Power. To manufacture Solar Systems a better equipped and bigger workshop became necessary; Sollatek took over the premises next door and the re-development took several months.

The first shipment of 1200 Solar panels arrived in May this year and for the first time in Kenya they are being assembled locally

This product has also led to another product called the "Solar Panel Charge Controller" which protects the battery in the Solar kit made by Sollatek Solar. One of the several successes of the company has been to design energy saving projects combined with voltage protection for airconditioners in hotels at the Coast in conjunction with Marelectric, a well established firm of electrical consultants and contractors.

Two large hotels have been converted so far with very substantial savings in their electricity bills. This is obviously great potential in this area.

Sollatek are now branching out into other specialised areas where a need for a particular product to provide protection is identified and their spokesman summed it up when he said, "We design it, manufacture it and provide the backup locally, which is why they say "Buy Sollatek With Confidence".

## 'AWARD WINNING STAND'

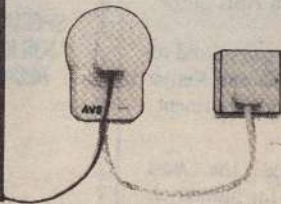

B.A.T. KENYA LIMITED are regular winners for their excellent stands which exhibit B.A.T.'s popular tobacco products.

# YOU'LL ALWAYS STEAL THE SHOW WITH BARCLAYS.

+++ YOU'RE BETTER OFF TALKING TO BARCLAYS

## STORM WARNING EXPECT POWER CUTS

### Relax...

# TOURISM PLAYS IMPORTANT ROLE IN THE COAST ECONOMY

FROM PAGE SIX

Government rearing of dairy animals is being stepped up in the high potential areas of Taita Taveta District to alleviate our dependence on dairy products from other areas of the country.

A milk processing plant is already in operation at Miritini to tap milk production in Kwale and Kilifi Districts respectively.

Tourism plays an important role in the economic development of Coast Province. I am happy to note that it has undertaken Tea and Coffee as a major foreign exchange earner for this country.

About 50 per cent of the bed spaces available in this country are found in this province. There are many beach hotels

offering a wide variety of attractions distributed all along the shoreline.

The growth of this industry has been made possible due to the emphasis our Government has continued to give to the expansion of its infrastructure.

## KILIFI BRIDGE

Moi International Airport has been expanded to international status and can now accommodate all sizes of aircraft while the multi-million Kilifi bridge to connect Mombasa with the North Coast is due for completion in April 1991.

Our farmers have also responded positively by

supporting the tourist industry by growing most of the foods required in this industry.

We owe our success in Agriculture, tourism and industry to the pragmatic economic policies that our government has continued to pursue over the years.

The Government has continued to give incentives to our farmers to enable them maximise their outputs to enable the Province sustain self-sufficiency in food production.

We should therefore redouble our efforts to enable us face the challenges ahead of us as we start the Second Decade of Nyayo Era.

THANK YOU.

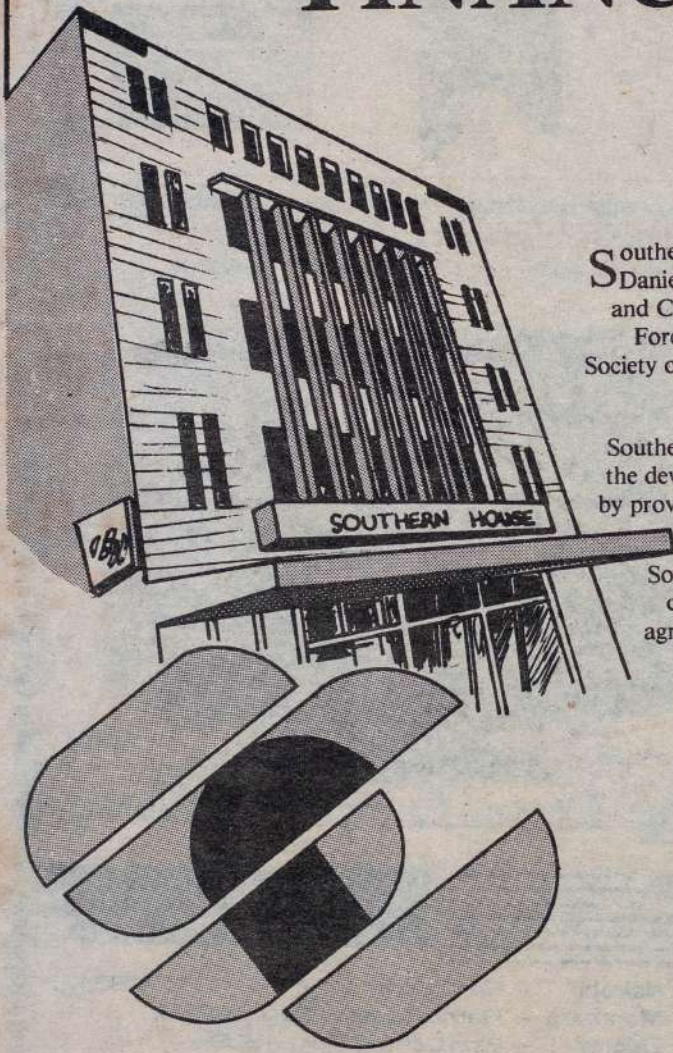

THIS year's Mombasa Show Committee members Standing (from left): Mr Cheryot, Mrs Elizabeth Daido, Mr Nyabunga, Mr M. Obura, Mr B.W. Odour, Mr Fred Miriga, Mr A. Maonga, Mr J. Marubu, Mr H. Omwenga, Mr D.M. Jilani, Mr Mukungu,

Mr Ekambili and Mr F.S. Fasih. Sitting (from left): Mr Kitheka, Miss Auha Busaid, Mr L. Kichuniu, Capt. M. Hatimy, Miss Shuweikha Rashid (chairman), Mr Miyessa, Mr Machira, Mr Mainji and Mrs Zainub Ismail.

## 'Security Will Be Very Tight At The Members Facility'

IT IS the duty of the Administration-Sub-Committee to look after the welfare of all showgoers for the entire four days of the Show.

Arrangements have been made to provide up-to-date facilities for our members in the Members Enclosure. Security will be very tight for checking those people who will be without Membership Cards at members enclosure.

I therefore appeal to all members to display their badges at all times to avoid disappointment with securities.

Mombasa Municipal Council fire personnel with fire extinguisher vans will be stationed near gate 'A' at the Showground throughout the show days in readiness for any fire that may occur.

Also for the convenience of showgoers, we have displayed signboard all over the showground to guide them.

There should be no panic for any showgoer who might fall sick or have minor incident, since the Provincial Medical Officer and the Hospital Administration, Coast General Hospital have provided us with Doctors who will be assisted by First Aiders from St. John Ambulance everyday and will be stationed at Announcing Tower.

Also there will be one Ambulance from Mombasa Municipal Council to ferry such serious cases to any of the four hospitals in the Mombasa Island.

### KENYA RED CROSS

The Kenya Red Cross personnel will be manning the lost children Banda near Gate 'A' as usual. In this Banda, there will be a bed, sweets and biscuits for lost children. Signboards are displayed to guide you to the Banda.

Last and not least - The seating facilities for our guests have been expanded to be to witness the official opening.

Young Farmers Club Youth

will be selling this year 1989 catalogues. Come all we will be there.

Mr J. Mukungu, CHAIRMAN  
ADMINISTRATION COMMITTEE

I wish to take this opportunity to welcome you all to the 1989 Mombasa National Show which I am convinced will be more educative and entertaining than any other shows in the past.

Preparations for this year's show started very early in the year with a main aim of trying to avoid last minute rush which was being experienced in the past years. At this juncture I wish to thank the show officials who put in a lot of their spare time into organizing the show on voluntary basis and would also like to thank Government Departments, Parastatals, Private Institutions, Individuals and Exhibitors whose positive and quick response made it possible for us to complete preparatory work in good time.

The Agricultural Society of Kenya, Coast Branch, under the chairmanship of Ms. Shuweikha S. Rashid, having the comfort of showgoers and exhibitors in mind, planned and implemented development projects within Jomo Kenyatta, Showground, Mombasa, this year, for example, the two New Grand Stands, five acre plot, renovations

## IT'S BOTH EDUCATIVE AND ENTERTAINING

of Farm and Dairy and Young Farmers Club Bands.

The staff at the Branch work very closely with the show officials to ensure that preparatory work is completed within schedule and nearer the days of the show, the staff force is supplemented by casual employees and skilled labour provided by our supporters.

I wish to make an appeal to the members of the Society to utilize recreational facilities available within the showground throughout the year. Lastly, I wish you all a better farming period within this year and next year's Mombasa National Shows.

Harun O. Omwenga AG. BRANCH MANAGER.

## Fun In The Arena !

Message from the Arena Chairman  
ON BEHALF of the Arena Committee I wish to take this opportunity to welcome all of you to our 1989 Mombasa A.S.K. Show which start from 31st to 3rd September, 1989.

As all of you know that the Arena is the backbone at the Show, the members have shown more effort to make 1989 Arena Events successful than previous years.

The events expected will be as following the famous Lamu Donkeys, Ladies tug-war, Ladies football and this year we shall have Men netball, event intended to amuse and entertain will be the colourful Musical band from the Armed Forces, Kenya Police, the Prisons and the Kenya Administration Police Bands, the famous Professor Juma and his Acrobatic team, Kenya Power and Lighting Company Tae-Kwado team.

The special event will be performed by 200 children from Municipal Council, 65 K.P.A. Nursery school children, K.P.A. Choir, and the Kenya Prison Band. We all expect to have the Green Eagle displayed by the Armed Forces.

Choirs to entertain will be K.P.A. Choir, the Kenya Power and Lighting Company, Kenya Navy and the Mombasa Municipal Choir. Avail yourself to see not to be told.

Joseph Marubu,  
ARENA CHAIRMAN.

**C**owboy is a blend of highly refined vegetable fats with a special flavour of its own. It's hygienically packed for the family's health.

And when all the family get the distinctive aroma of food cooked in Cowboy, they know they're going to taste something special.

Because pure vegetable Cowboy is the best way to add that exciting difference to your cooking. Cowboy gives a special tastier flavour to your meals. So, whatever you're cooking, use Cowboy.

**You'll see why Cowboy makes a meal taste better!**

SPEARHEADING TOYOTA Kenya's Coast operations is Mr J.T. Jivanjee, the company's Regional Manager, Coast, seen (left) discussing two of

Toyota's best-selling models, the 'Hiace' minibus and the 'Corolla 90' with Charles Kariguthu, the Mombasa Sales Manager.

## TOYOTA MOMBASA IS 'NUMBER ONE' IN COAST

WITH Toyota now leading in this year's hotly contested battle for leadership in Kenya's vehicle market, it's not surprising that Toyota Kenya's busy Mombasa branch is Number One at the Coast with a 27 per cent share of the market. Toyota's sales Kenya wide for the period January 1 to July 31, 1989 totalled 1458 units, nearly ten per cent ahead of its closest rival.

The increased number of Toyota vehicles now operating at the coast means more vehicles to be serviced by Toyota Kenya's Mombasa branch on Moi Avenue. The company's regional manager coast, Mr J.T. Jivanjee says that Toyota Kenya has already instigated a vigorous programme to up-date and improve the branch's service and workshop facilities so that it can cope with the

additional vehicles.

"We are expecting delivery shortly of various items of modern diagnostic vehicle testing equipment from Japan which will enable us to improve the technical aspects of our workshop service but improved technology is not enough on its own" commented Mr Jivanjee.

"We aim to improve the overall quality of our customer service both in technological and human terms. We are also making special efforts to provide an express service for the increasing number of hoteliers and tour operators who have switched to Toyota because they cannot afford to have vehicles off the road for long during the busy tourist season".

Winners of the class for the best motor vehicle manufacturer's stand at last year's Mombasa Show, Toyota Kenya will once again be displaying the latest

Toyota vehicles straight off the assembly lines at AVA. The line-up will include the sought after Corolla 90 with many new luxury specifications; the new Hiace which is the only minibus with a limited slip differential on the local market; the improved, best selling Hilux one-ton pick-up, the new four-ton Dyna truck and the ubiquitous Land Cruiser.

Contributions to the local community have been a notable feature of Toyota Kenya's activities in Mombasa under Mr Jivanjee's leadership. The company meets the cost of mounting and provides all the prizes for the annual Toyota Fellowship Golf Tournament for Mombasa service clubs, which is organised by the Mombasa Round Table and it is a co-sponsor with the Reef Hotel of the Mombasa Madaraka Day Cycle Race, which is now the most important event in Kenya's cycling calendar.

# Strength and simplicity combined

Lasting reliability, high output, ease of operation and serviceability have all been designed into the latest MF3640 Combine Harvester.

The high-inertia cylinder generates up to three times the threshing force of conventional pressed steel cylinders. This smooths out peak loads and maintains a constant cylinder speed for more efficient threshing, less grain damage, reduced wear and improved fuel economy.

There is plenty of power — 123 horse-power, produced by the smooth high-torque low-revving, Perkins 6-cylinder diesel engine.

Servicing and belt changing are simple, many drives are self-tensioning, including the traction drive.

The MF3640, simply superb.

## The Farm And Dairy Produce Exhibits

I WISH to take this opportunity to welcome you all to the 1989 A.S.K. Mombasa National Show on behalf of the Farm and Dairy Produce Sub-Committee.

Mombasa National Show is an annual event in the A.S.K. Calendar converging together Exhibitors, Farmers and entire Cross Section of the Kenya Community.

Visitors from far and wide come to view the Show while Exhibitors, Traders, Livestock, and Crop Farmers display and compete with their counter parts from various districts and the Nation at large.

Farm and Dairy Produce Stand is the main show piece of Mombasa National Show where farmers achievements in production of cereal, legumes, Horticultural industrial crops, Dairy and Bee Produce and Poultry Products are displayed.

FLASHBACK — President Moi admires some of the 'Husseini Dairy' farm Kwale livestock, which swept seven cattle awards at a previous show. Listening to the President's comments is Rashid Miyanji.

Agricultural Sector is dynamic therefore Farm and Dairy Produce Stand is a true reflection of the year's performance in agricultural production.

This year 3,500 exhibits are registered to be displayed at Farm and Dairy Stand.

These exhibits are from all Six Districts in Coast Province,

Embu, and Garissa Districts representing Eastern and North Eastern Provinces respectively.

May I appeal to you to spare a moment while in the Showground to visit the Farm and Dairy produce Stand.

**Daniel Mwangi,**  
CHAIRMAN FARM AND DAIRY PRODUCE COMMITTEE.

THERE is a very fine seafood restaurant in Mombasa, the Mombasa Tamarind. Here, guests settle comfortably on the wide verandah overlooking Fort Jesus, order cocktails, and delight over a menu presenting a splendid selection of fresh seafood.

It is from the jetty of this unique restaurant that the Tamarind Dhow, Nawalikkher, cruises gently, mornings and evenings the dhow's band setting the mood with soft background music, to moor in the creek for a superb lunch — or dinner —

## A Superb Seafood Selection

crab, lobster, prawns piri piri, calamari, fillet steak, fruit salad coffee.

To provide the business community with easily accessible eating out facilities

at any of the Tamarind Restaurants — Tamarind Mombasa, Tamarind Nairobi, The Carnivore and The Simba Saloon — tamarind Management have their own very successful credit card system.

Available for corporate membership and business people, Tamarind Management give card holders a 20 per cent discount on food provided the account is settled by the 20TH OF THE FOLLOWING MONTH AND BUSINESS ENTERTAINMENT OFFERED.

## The 'General Motors' 'Caravan' Has Arrived

GENERAL MOTORS Kenya Limited vehicles will be on display at the Mombasa National Show. The man behind the move is Marketing representative Mr Daniel O. Marbue, who took the fleet on a big procession passing through Jomo Kenyatta Avenue, Digo Road and Moi Avenue to the Ryce Motors depot in Mombasa. He said: "General Motors Kenya with our wide range of vehicles is one of the leaders in the local motor industry. We bring you the Caravan to let you know the following about locally assembled vehicles. That a wide variety of these vehicles are now available throughout Kenya, that the high local content of the vehicles means an increased contribution to the national economy, and less use of foreign exchange and that thousands of jobs are generated in this fast growing industry." He added: "Not only does the formal sector benefit and grow, but the informal service sector does too. Kenyans learn new skills and receive technical training in the industry and the transfer of technology to Kenya is facilitated." The Caravan convey is seen while passing through Miritini near Mombasa.

Thank You  
Cocktail ...**

TO SAY "thank you" to local companies for their continued support, Mombasa's Hotel Inter Continental hosted a cocktail party which included a culinary extravaganza of "Bitings" ranging from a carvery to pancakes.

The presentation was very professional and such was the conviviality generated among the 150 guests that no-one wanted to leave.

On arrival they were greeted by the General Manager, Siegfried Schober; Sales manager, Lorraine de Souza and Guest Relations Officers, while on leaving all ladies were presented with a rose, by courtesy of "Forget-Me-Not".

**PRIORITY  
BOOKINGS**

Mr Schober also thanked Mombasa Executive Club members for their support and revealed that once the proposed Mombasa Safari Club is established they will have reciprocal rights with the Nairobi Safari Club.

He assured patrons that they would receive priority for any bookings they may wish to make for the forthcoming high season.

**ACKNOWLEDGEMENT**

**MRS RAM KAUR BIRC**  
BORN: 1.7.1909  
DIED: 19.8.1989

The family of GURBACHAN SINGH BIRGI (Indo-Africa Restaurant) wishes to convey their sincere thanks to all relatives and friends for their messages of condolences and their assistance in various ways following the sad demise of MRS RAM KAUR BIRGI who passed away in Mombasa on August 19, 1989.

As it is not possible to write to all of you individually, please accept this as an expression of our gratitude. May God rest her soul in eternal peace.

KENYA's most popular one-ton pick-up, the Toyota Hi-Lux, is available with a diesel or petrol engine and in two and four-wheel drive formats with both single and double-cab configurations.

## TOYOTA LEADING VEHICLE SALES ...

WITH adequate stocks available for the first time in ten months Toyota has regained the number one position in the hotly contested battle for leadership in Kenya's vehicle market, with sales totalling 1458 units for the period January to July, 1989.

Toyota were the market leaders in 1987 but slipped back into second place in 1988, and later slipped back further into third place as at the end of the first quarter of this year. By the end of June Toyota was in second place and with July sales totalling 311 units, Toyota was back in the number one position with 1420 units sold, Peugeot third with 1416 and Isuzu fourth with 1215 units.

The total number of vehicles sold during the seven-month period was 7,532.

Toyota's biggest gains have been in the passenger car under 1500 cc and one-ton pick-up sectors. With supplies at last available to meet demands, the four-valve Corolla 90 sold a total of 418 units, giving this much sought after model a 27.7 per cent share in its sector of the market.

In the one-ton pick-up sector the Toyota Hilux made dramatic gains selling 719 units, dethroning the long-time market leader, the Peugeot 504 pick-up for the first

time. Peugeot sold 697 units and Nissan were in third place with sales of 314 units.

In the diesel minibus sector Totota also made significant progress with its Hiace model, now available with a limited slip differential, selling 97 units. The diesel Hiace's only real rival, the Nissan Urvan, sold 87 units.

Commenting on its improved sales performance, a Toyota Kenya spokesman said that better availability of CKD kits, combined with the reduction in vehicle prices resulting from the June budget, had helped put Toyota back in the number one place in the vehicle market.

However, he said, the local motor industry as a whole was beginning to benefit from the tighter controls on the importation of vehicles which was now being exerted by government.

## An Embarrassment On A Very Busy Highway!

IN DRIVING one gets into awkward situations sometimes. I have seen chique young ladies look helplessly when their vehicles come to a stand still in the middle of flowing traffic.

The embarrassment they have to go through when surrounded by hooting matatus and other vehicles is of a degree that is not easy to describe.

Perhaps by nature the female gender are hardened up to the rigours of traffic misbehaviour - Michele Mouton excluded!

Kachumbari told me of an instance when he saw a car career out of control for no apparent reason. The lady who was behind the wheel was frantically trying to get out of the moving vehicle.

The car ended up saying hello to a lamp post which stopped its further uncontrolled progress.

The lady got out of the car in a hurry and proceeded straight towards a clump of bougainvillea that was conveniently close by and disappeared into the thicket.

She came out a few minutes later wiping the sweat from her brow. She found Kachumbari and a few other people trying to pull the car from its tango with the lamp post.

When she was asked what had happened she paused for a moment to think and then said quietly that a couple of cockroaches had decided that the leg of her trouser would be a good place to find refuge.

When she felt this tickling sensation creeping up her pants she got so frightened that she let go of the steering wheel and thus the car ended up giving the lamp post a close scrutiny.

She had made the mad dash to the thicket to remove the unwelcome crawlies from about her person.

The good samaritans helped straighten the various bent bits of the vehicle and she went on her way.

I have seen similar things happen with snakes.

Once when driving through the country side I saw a car do a similar manoeuvre and end up in a wide gully on the side of the road.

The young man Mohican hair cut and all got out of the car and started to look around furtively. I went across to find out what was wrong and for a few seconds he was tongue tied.

After a while he started to stutter about a long thing that crossed the road in front of him whilst he was driving.

He had seen it in story books back home but he had never seen one close by. On further enquiries I found out that the fellow was a tourist who had decided to hire a car and see the countryside for himself.

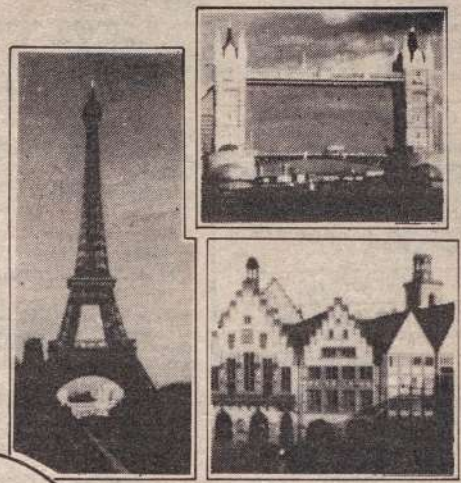

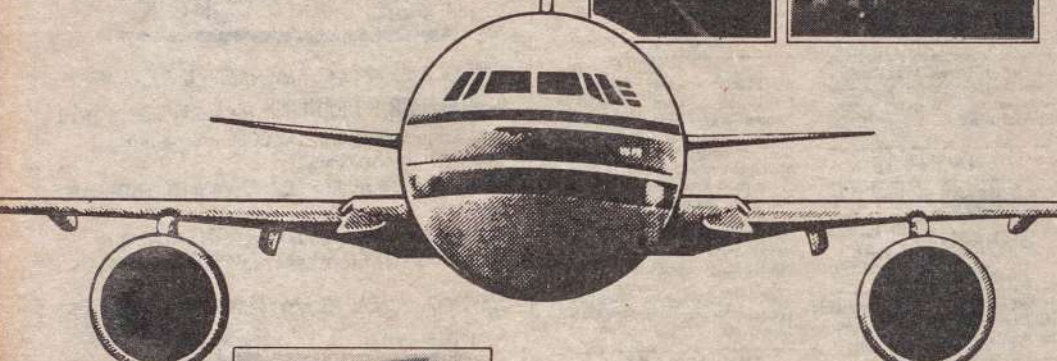

His only previous experience with the wild was through a windscreen in Windsor Safari Park.

There he had seen lions, elephants and tigers and a quasi-natural habitat but the creepies were an experience he had never

had. Between the two of us we eventually managed to right the car and suitably calmed down the fellow went on his way reliving his first encounter with an African python.

The boys in blue have a difficult rent problem. Last weekend Kachumbari came to me an

# Airbus direct

Kenya Airways flies Airbus A310-300's from Nairobi and Mombasa to Europe's prime business centres.

And from Nairobi, the Gateway to principal business centres, our fleet offers regular, conveniently scheduled services to key business destinations in Africa, the Middle East, the Far East and beyond.

For business travellers, it means new levels of space, comfort and refinement and a new concept of our pride in First and Club class travel.

And for exporters and importers, it means a massive increase in cargo space - enough to make the difference between delivery on time and delivery some time.

Now more than ever, Kenya Airways is taking its place among the great airlines of the world. Offering daily wide-body aircraft to Europe.

And that's something that gives us the greatest pride of all.

COAST DRIVE  
with  
PATRICK OBATH

asked me to join him in a drive round the Kongowea area.

I obliged and got into his car. He took me to a spot where dark blue peugeot pick-up was parked.

The boys in blue were huddled round an object that was the reason for Kachumbari dragging me away from my mid-afternoon siesta.

On closer inspection they had surrounded a lone goat. The goat was desperately trying to find its way out of the circle but with no joy.

With a loud shout the gent men swooped on the lone goat and grabbed all its four legs. They then proceeded to haul it in the pick-up to join six other goats that they had earlier "arrested".

Yes the area was cleared of goats as had been promised some time back.

What tickled Kachumbari caused him to drag me out, my abode was that it required six burly guys to catch a kilo goat and haul it into vehicle.

The Kongowea goats have been amongst people for so long that they have adopted some human habits but I would expect them to have learnt martial arts.

As Kachumbari says, we are surrounded by creatures of shapes and sizes. It is time learnt to co-exist peacefully.

# Wachira Triumphs At The 36th Hole!

WACHIRA Mahihu retained his title as Club Champion at Nyali Golf and Country Club by winning the Greenwood Trophy in a thrilling 36 hole final against Ben Okeillo last Sunday writes *Wachira*.

Conditions were near perfect with a dry, slightly cloudy day and virtually no wind. The first holes was a cat and mouse affair with both players feeling that each other's game and they stood all square at lunchtime.

After a short break, it was back to the course and it soon came a most exciting contest with some really excellent golf being played.

Wachira birdied the fifth to set the match at all square and immediately followed this with a magnificent putt on the sixth for a two.

Not to be outdone, Ben sank his fifteen-footer also for a two and quickly scored two more birdies at the seventh and eighth holes to go two up.

Another two for Wachira at the tenth and a par at the eleventh brought the match back to all square, Ben having unfortunately lost his ball on his drive.

Wachira went one up at the twelfth only to lose the fourteenth when his approach shot on the back of the green. A beautiful drive from Ben on the fifteenth gave him another easy birdie and the sixteenth was saved in fours.

Ben's drive on the seventeenth found the trees while Wachira strayed onto the sixteenth fairway but he recovered with a superb shot to the approach of the green and this gave him an easy pitch and he sank his putt for a birdie — the match was back to all square.

Both players had good drives to the eighteenth green and Ben making a brave attempt to hole his putt failed to do so, missed the return, and Wachira had no problem in getting his par and so successfully became Club Champion for the second year running, having previously won in 1985.

The standard of golf in the afternoon round was extremely high, Wachira having scored 71 gross to Ben's 73 so it was a pity that one player had to lose.

Wachira admitted in his speech that it was the toughest match he had ever played. Congratulations on a wonderful victory and no doubt Ben will be there next year to prevent a hat-trick!

Meanwhile the finalists in the Strugglers Cup and Bunny Mug had been playing their 18 hole Finals in the morning. J.C. Patel

## GOLF NEWS

had a hard fought tussle with Anjay Talwar who hits a very long ball but it was Jayman's putting which eventually won the day but only after the match had reached the 19th hole.

The Bunny Mug was a slightly easier affair with Nizar Visram winning quite comfortably 4/3 over Richard Aldrick.

The Greenwood Trophy was generously sponsored by Micron Exhausts and Vishnu Dhutia who is a keen new golfer also agreed to host a Subsidiary competition for all those players who had been knocked out in the earlier match play rounds and also for any other men and lady golfers.

The entry for this event was rather disappointing but those taking part really enjoyed themselves and especially the format of Bogey which is little used in competitions these days.

It does seem particularly difficult to come up with a good score under these rules but there was no doubt that Dinesh Asodia's round must have been good as his was the only score to result in plus, Salim Mohamed was all square and the rest of the field were decidedly minus!

Dinesh was the winner and his result of plus one meant he

played 83 gross, three under his handicap. Salim was runner-up (all square) and third was Peter Potgieter (-2) The Best First Nine went to Kiran Patel (-1) and the Best Second Nine to Catherine Ndegwa (-1).

Dave McConnell the Nyali Captain, thanked all those who had participated and supported the Championships and especially the Sponsors of the three trophies Micron Exhausts, Casurina Wines and Top Draw Limited.

On the previous afternoon a more mundane event the August Monthly mug took place at Nyali For the second month in a row the weather could not have been more unpleasant with persistent rain for most of the afternoon making conditions very tedious indeed.

As always the scores suffered a great deal. The winner of A division was Jerry Njoroge with a very good nett 72 beating into runner-up spot on countback Paul Wilson also 72.

Best Gross went to Wachira Mahihu (79) his excellent back nine beating Ted Kabetu who chose to play the front nine rather well!

Ben Okatch was the runaway

winner in B division with nett 67 — this will surely be the last time he plays off 18 handicap Trailing behind on nett 74 was runner-up Dinker Thakker.

Shabbir Tappya won C division with a good 71 nett and runner-up was Tony Duff-Tytler on 73.

A future golf "star" also played on Saturday in the appalling conditions.

Chairman Ted Kabetu's son Kim was playing as a marker trying to gain his handicap and went round in 93 gross which as was pointed out, was better than all but one in C division, most of B division, and even better than two not to be named A division players! Well done Kim and watch out Ted.

The Mug was generously sponsored by "Il Duetto" restaurant, namely Libba and Gianki Bonnano who provided a delicious tea.

At Mombasa Golf Club a few brave ladies took part in the August L.G.U. Medal. Conditions were very trying and only two ladies managed to beat 80 nett. The winner was Akki Khan on nett 74 and runner-up was Vice-Captain Eileen Sinclair on nett 78.

Several Coast players are travelling to Limuru this weekend for the Finals of the Kenya Breweries Festival of Golf and we wish them the best of luck, it would be nice to see the Trophy coming to the Coast.

## IN SHORT

KANA Cup knockout final between Jaffery Sports Club and Shree Cutchi Leva Sports Club was abandoned due to rain and is now scheduled for Saturday September 9, 1989.

In the Sigma League, Patel Sports Club beat Shri Cutchi Leva Club by 58 runs.

The young Cutchi Leva side was bowled out for less than 100 runs for the fifth time in six Sunday outings so far — capable the side is an can be seen from the performance in Saturday Kana Cup Knockout.

Scores: Patel Sports Club 135 all out — Jagdish Patel 34, Iqbal 29—Suresh 4/24. Shree Cutchi Leva 77 all out — Subash 18, Rohit 3/10 Kamal 3/10.

Coast Gymkhana beat Union Cricketers by six wickets in the other Sigma Paints League game.

Scores: Union Cricketers 132 all out — Abbas Nazerali 5T injured Coast Gymkhana 133/4-Hitesh and Mohamed were not separated from 51/4.

Weekend fixtures: Sigma Paints League - Sunday.

Jaffery Sports Club v/s Hatim Karimjee at JSC, Patel Sports Club v/s Coast Gymkhana at CC.

AFTER so many successful hash

runs in recent times it was only inevitable that the law of averages would tilt against hash and they would embark on a run at the end of which only curses would be heard.

This was exactly what happened during last Saturday's hash.

The rains played havoc with the agreements but poor Nikesh Bullshit was prevailed upon to set the hash by the diehard or as some prefer foolhardy hashers. 12 runners braved the incremental conditions and by some miracle Bald Eagle and Simba managed to drive through slippery roads into the wilds of Nguu Tatu.

## SEPTEMBER HASHING

The has next Saturday on September 1, 1989 will be set by Bald Eagle in honour of his departing eaglets and all are welcome. Hopefully the rains will have subsided. Meet at Manor Hotel at 4.30 p.m.

## BRIDGE RESULTS

THE result of the Duplicate Bridge played at the Mombasa Sports Club on August 23, 1989.

K.P. Shah and R. Sharma 116; Amit De and Sen Sharma 115; Dr. Rawal and H. Dodhia 113; Pravin M. and H. Malde 112; I.K. Babla and A. Nathwani 108; T. Pujara and Amu Shah 107; Chandu and Chandrakant Shah 101; Mr and Mrs J.J. Shah 100; D. Trivedi and Gopinath 100;

## EARLY WINNERS IN MICRON TOURNAMENT

ACTION Boys and Makupa Rangers emerged as early winners in the new "Micron" football tournament, now underway at Mombasa Sports Club writes D.J.W.

In the opening game, Action Boys played a fast style of football against Nyali Beach Hotel controlling the game with ground passes.

It was no surprise when they went ahead after 12 minutes with a header by Mani from Soud's cross.

The hotelier fought back well

and came back to equalising in the first half, when a fierce shot hit the bar.

However, Action Boys held on to their 1-0 lead, to proceed to the next round.

On Tuesday, a close game

between two well-balanced sides, Makupa Rangers and Saragoi ended in a 1-1 draw.

In a dramatic sudden-death finale, both teams scored with their sixth and seventh shots, but after Saragoi missed their

eighth attempt, young Aslam became his team's hero when he netted for Makupa Rangers. The final score, after penalties, was 8-7 to Makupa.

Next week will be full of action.

## Kenya 6th (Butterflies) Definitive Stamp Issue — Additional Value

The Corporation is pleased to announce the introduction of an additional denomination of 10 cents value into the current definitive stamp series. The stamp will be released on 1st September, 1989 and will be placed on sale at all Post Offices.

There will be no First Day Cover Service. Stamp collectors can obtain the first day of issue cancellation stamps on presentation of their own envelopes.

## FEISAL CLASH WITH RHINO

FEISAL, an oldest club at the Coast travel to Tiwi in South Coast to play Rhino tomorrow where they will need only a single goal victory to dislodge their traditional arch rivals Mwenge from second position of the on-going Coast Premier League Group 'A'. Feisal are in fourth spot.

Mwenge who recorded a fine 2-0 win over an unpredictable Black Santos side last weekend moved to second position previously occupied by Mombasa Wanderers. Wanderers are now third. Feisal will have to win against Rhino to overthrew Mwenge from their current place by better goal average.

However, Mombasa Wanderers have a better chance to retain their second spot on Sunday when they entertain 12th placed Nyundo at Mombasa Municipal Stadium. It is a match Wanderers are assured of winning by a bigger margin if they take it seriously.

Congo Boys who surprisingly surrendered two points to Mombasa Stars last weekend, when they went down 1-2, will have to play it seriously tomorrow at Mombasa Municipal Stadium against the visiting Taveta Estate. The visitors are eighth in the standing.

Black Santos currently under the guidance of Bandari star Yusuf Harubi have improved at late and should easily snatch two points on Sunday when they face Taveta Estate at Mombasa Stadium. A 1-0 victory will enable Santos to overtake Civil Servant from sixth spot.

If Wanderers wins their Sunday match against Nyundo, Feisal will be trying to dislodge the former Superleague side from second spot on Wednesday where they have been drawn to clash against Chelsea. Chelsea have to try to tighten their defence or else, Feisal strikers will score at will.

In Group 'B', Mombasa Posta are all set to retain their top position currently being held by Malindi Alaskan when they play two away matches this weekend. The mailmen clash against Tana Maroon tomorrow before playing Hola Police on Sunday in Hola. However, it is a tricky trip for Posta.

Lamu Jaws, in eighth position, will be another club to play two away fixtures this weekend. They travel to Malindi to try to avenge a 4-0 defeat they

**SOCCER SCENE** by **Abdul R. Sheriff**

suffered at the hands of Kenya Navy on March 18 in Lamu. Navy men are badly in need of the two points and they will definitely record an overwhelming win.

On Sunday, Jaws should be prepared to face the music when they play guests to Starfish of Malindi at Malindi Municipal Stadium. Jaws won their first round match against Starfish in Lamu on March 25 but the Islanders must expect defeat this time as the Malindians have vowed to collect both points.

Koroshu will try to overtake Yanga when the two teams face each other at Cashewnuts ground tomorrow. Yanga have 12 points while Koroshu, with better goal aggregate have 10 points. A win for the cashewnuts team will enable them to occupy ninth position.

MICRON Cup Invitational Soccer Competition continues at Mombasa Sports Club on Monday where Brasil clash against Mackinnon while on Tuesday,

**WINNERS** — Mrs Vincenzini (left) joint winner of the Ladies Mixed Doubles Coast Open Golf, seen with Miss Alsham Lakha, representing the sponsors, Messrs. Oceanic Hotel Group, Lady Golf Captain Koki Patel, and Dr. Ashwin Patel, joint winner of the Ladies Coast Open Mixed Doubles Golf Tournament.

Manchester United entertain Peru and on Thursday, Kenjaro Coffee tackle Bismarck.

Meanwhile, Al-Nassir FC of Lamu ended their district first division league fixture on a fine note when they crushed Brighter Star 6-0 in a one-sided affair at Lamu Sports Ground. Earlier Al-Nassir who are topping the standing beat Lamu Wanderers 1-0.

In another match, Horohoro who need to win all their matches to lift the league title recorded a narrow 1-0 victory over Eleven Tiger at the same venue. Horohoro have now to win their remaining games against Uwambe and Brighter Star to overtake Al-Nassir.

Low Water - 0.82 metres at 01.09 hours and 1.00 metres at 13.48 hours.

## NEWS BRIEFS

### CYCLISTS FINISH TOUR TO MALINDI

A TOTAL of about 15 cyclists made it to Malindi on a trip organised by the Mombasa Cycling Club.

The cyclists who left on Saturday August 26, were in Malindi by 2.00 p.m.

A few had punctures which were duly repaired by the service vehicle which was following up behind them. After lunch in Malindi, they made their way to the Silversands Camp site where they put up camps.

Dinner was a fantastic Bar-B-Q under the full moon by the seaside. The next day the club left back for Mombasa at around 3.00 p.m. after spending the day on the beach.

Overall the trip was a major success. It was the first of its kind to be organised by the club. A special note of gratitude must go to Abeezee Adamji who unselfishly came along with his Pick-up.

The next league race which was programmed for September 3, has unfortunately been put back once again by one week and will take place now on September 10.

The route and venue remain the same. The delay is due to A.S.K. Show.

### MAURITIUS VISIT

BRIDGE players from Mombasa Sports Club have travelled to Mauritius and Reunion for a week tour.

They played against the Alpha Bridge Club, a pair event and a team game.

The strong Mauritius pairs were better in pair event, but, in the team game, nine teams played and the first team of K.P. Shah (Captain), A.D. Shah, Dr H. Rawal and C.D. Shah were third, beating some of the international players.

The second team of C.C. Shah Chandu, P.J. Shah and J.K. Babla were seventh.

## Aasif Karim Wins Coast Open Tennis

MOMBASA'S own Asif Karim stamped his superiority in Coast tennis when he beat Norbert Oduor in the men's singles finals of the Coast Open Tennis Championship at the Mombasa Sports Club. Asif playing his cool and calculating game gave Norbert no leeway as he romped to 6-2-6-3 victory.

Much was expected of Oduor this time. Prior to the Coast Open, he had just won the Kenya Closed Championships for the second time. Coupled to that Oduor was in the Davis Cup Team which played against Cote D'Ivoire and Morocco and he had a lot of exposure with some good players.

Asif on the other hand was hardly been playing tennis and has opted to play cricket instead. And so the big crowd that turned up to watch the finals were wondering whether this time Oduor could beat Karim. In the first set Karim was evidently in command as he scored a clinical 6-2 victory.

However, in the second set Oduor raised the standard of his game and threatened to take the set. Asif was beginning to show signs of fatigue as the games wore on, and a super fit Oduor came into the game.

But Karim hung on with some determination for a 6-3 second set win and thus secure the men's singles purse of Shs 5,000/-.

The men's doubles match was the most interesting match of the tournament as well as very entertaining. Peter Orwa, also a Davis cup player and Norbert Oduor who were pitted against Karim and Kai Kampa an 18 year old junior player from Germany and were seeded two.

In the first set Orwa and Oduor raced to a 6-3 win over their dazed opponents. However things began to change in the second set as Karim maintained their pace as they beat

### TENNIS NOTES

a faltering Orwa and Oduor 6-2 to win the Doubles title.

In the ladies event young Catherine Katibi from Nairobi brushed all opposition to win the triple crown. In the ladies singles Catherine who was seeded three beat a much fancied seed one Lillian Wanjira for an easy 6-3, 6-0 victory and thus increase her pocket money by Shs 3,000/-.

In the ladies doubles she teamed up with Louisa Wekesa to beat Nihal Nobar and Lillian Wanjira for a 7-5, 6-2, victory. And in the mixed doubles finals Catherine partnering Norbert Oduor beat Sam Kipkoeh and Lillian Wanjira.

### NEPTUNE HOTELS

The tournament was sponsored by Neptune Hotels and friends of the Mombasa Sport Club chipped in. Talat Khan the managing director of Holiday Resorts, who own the four Neptune hotels along the north and south coast was on hand to give away the prize money to the winners.

Later on he hosted a dinner at the club house for all players, officials and helpers and every body looked well contented.

The tournament was well organised by the Tournament Director Kish Sanghavi together with his most able helpers Brenda Menezes, Marlene Reia and Bhogi Doshi.
